Izmir Bakırçay University

Graduated: May 2025

Bachelor of Science in Computer Engineering | GPA: 3.0/4.0

PROJECTS

Real-Time Chat App

Apr. 2026 – Jun. 2026

[Github Repository](#)

- Built scalable group chat with real-time presence, typing, and read receipts using **FastAPI**, **React**, and **WebSockets**
- Scaled to N workers with zero coordination via **Redis** pub/sub fan-out and HSET/ZSET presence
- Added direct-to-S3 uploads, JWT access + refresh, rate limiting, and **GitHub Actions** CI deployed to **EC2**

User Auth API

Nov. 2025 – Mar. 2026

[Github Repository](#)

- Built async authentication backend handling email/password, OAuth2, and role-based access using **FastAPI**, **PostgreSQL**, **Redis**, and **Celery**
- Hardened auth against brute-force with **Argon2** hashing, **JWT** access + refresh tokens, Redis blacklisting, **OAuth2**, **RBAC**, and **SlowAPI** rate limiting
- Structured on clean architecture with DI, unit tests, and full **Docker Compose** deployment

Library Management API

May 2025 – Sep. 2025

[Github Repository](#)

- Built RESTful library API with full CRUD and cached responses using **.NET**, **EF Core**, **MS SQL**, and **Redis**
- Applied **CQRS** (MediatR), Specification, and Result patterns on **Onion Architecture**
- Secured with **JWT** + **FluentValidation**, logged via **Serilog**, tested with **xUnit/Moq**, **Docker**-ized

EXPERIENCE

Software Development Intern

Feb. 2025 – May 2025

Izmir Bakırçay University | 3 Months

- Worked as part of a 6-person team to design and implement backend infrastructure for two AI-driven applications
- Led development of key backend components using **.NET Core**, **Entity Framework Core**, and **MS SQL**
- Applied modern software principles including **JWT authentication** and **Onion Architecture**

SKILLS

Languages: Python, C#, SQL, JavaScript, React

Frameworks & Libraries: FastAPI, .NET, Entity Framework Core, MediatR, SQLAlchemy, Celery, Tailwind

Databases: PostgreSQL, MS SQL, MongoDB

Cloud & DevOps: AWS (EC2, VPC, IAM, S3), Docker, Redis, Git

LANGUAGES

Turkish: Native

English: Fluent
